For Students Considering Private Education

The 3Rs when deciding on Private Education

Reasons

- Why are you furthering your studies?
- What are the job prospects for your preferred course?

Readiness

- How ready are you to further your studies?
- Can you cope with the academic rigour and assignment deadlines?
- Can you fund your studies?

Risks

- Do you know the possible drawbacks?
 - Your expected returns may not exceed the investments you put into your private education.
 - Private schools may make exaggerated claims.
 - Private schools may close due to various reasons.
 - You may not get a full refund if you withdraw from your course.

8 Things You Should Know Before You Enrol in A Private School

School Registration
Ensure the school is registered with SkillsFuture Singapore (SSG). Review the school's registration period, expiry date and its overall registration track record.

Partner Institution
Research on the partner institution conferring the diploma or degree, and whether the qualification is recognised by the industry.

EduTrust Certification Scheme
Is the school EduTrust-certified*? Under the scheme, private schools are assessed for their performance in areas such as school management and provision of student support services.

*Schools are required to obtain EduTrust certification in order to offer external degree programmes

School Premises
Head down to the campus ground to check the facilities and support services. Observe the study environment too.

Fee Protection
Ask if there is any course fee protection so that you will be able to recover unconsumed course fees should the school close down.

Beyond Course fees
Find out about the course syllabus and materials, graduation rates and employment prospects. Approach the alumni to find out what they think of the school.

Teachers
Check if the teachers are qualified to teach the course.

Internship
If industry attachment is included, find out which organisation you will be attached to, the period of attachment and the alternative arrangement should the attachment become unavailable. Verify the information with the organisation as well.
